

# Conversation class - Intermediate

Class theme/topic discussed: Hobbies/clubs

Goal of the class: Review vocabulary about hobbies, talk about what they like doing + frequency, using the Turf dinner that had just happened.

Structure:

INPUT

To introduce vocabulary related to hobbies, I told the students a story about my hobbies throughout my life, using slides to illustrate what I was saying.

ACTIVITY 1

- Survey: what do you do in your free time? What kind of activities? Each student has a short survey and must interview another student to fill it in. For the advanced class, I asked them not to tell what their hobby was and their partner had to guess based on their answers.
- Each student then briefly presents their partner's hobby to the rest of the class.

ACTIVITY 2

- Students who have very different kinds of hobbies are paired up. Together, they must create a club that they would present to the Turf dinner. The club must be a mix of their two hobbies plus another element that I randomly gave them (tea, pets, knitting...). They need to fill in a chart with information about the club and prepare a presentation for the Turf dinner.
- Fake Turf dinner: in turn, each pair presents their club to the rest of the class. The other students must find, in pairs, at least one question to ask to each group (asking for more details, for clarifications etc)

Reflection:

For an intermediate class, there needs to be more input to make sure that they have enough vocab. The questions at the end of the presentations sparked really fun and imaginative conversations in both groups so I think I would insist on that part and encourage each student to come up with a question.

# Sondage: que fais-tu pendant ton temps libre?
